Delhi's Power Minister Ashish Sood on Thursday inaugurated India's first commercially approved and South Asia's largest standalone utility-scale Battery Energy Storage System (BESS), developed by ...

The Delhi Electricity Regulatory Commission (DERC) has granted regulatory approval for India's inaugural commercial standalone Battery Energy Storage System (BESS) project.

Battery energy storage systems (BESS) allow for energy storage in batteries for later use. India has committed to achieve 50 per cent of installed capacity from non-fossil-fuel-based sources by 2030.

NEW DELHI | 8 May, 2025 -- The GEAPP Leadership Council (GLC) today officially announced the launch of India's first utility-scale, standalone Battery Energy Storage System (BESS) project, the ...

"The 20 MW/40 MWh BESS was delivered on a turnkey basis under a long-term battery energy storage capacity agreement (BESPA) with BRPL. Installed and commissioned in just 11 ...

The Delhi Electricity Regulatory Commission (DERC) has approved the Battery Energy Storage System (BESS) agreement between BSES Rajdhani Power (BRPL) and Kilokari BESS for ...

Discover how the New Delhi lithium battery energy storage project is revolutionizing India's renewable energy landscape--and why it matters for industries worldwide.

The country's first commercially-approved standalone battery energy storage system (BESS) capable of four-hour daily supply being set up at Kilokri in South Delhi will become functional ...

In a significant step toward India's clean energy transition, AmpereHour Energy, in collaboration with

15kW Energy Storage Battery Cabinet Used in Environmental Protection Project in New Delhi

Indigrid and BSES Rajdhani Power Limited (BRPL), has successfully ...

The project will add a combined storage capacity of 55.5 MW at grid locations in Malviya Nagar, Matiala, Dwarka and Goyla Khurd. The systems are expected to improve supply reliability. ...
