PV Modules with positive tolerance that delivers reliable higher output. The Specifications in this datasheet are subject subject to change without any notice. The Electrical data given here is for ...

Minor reduction in efficiency under partial load conditions at 25 °C: at 200 W/m<sup>2</sup>, 100% of the STC efficiency (1000 W/m<sup>2</sup>) is achieved.

Solar Panel Guide Specification Data Sheet Learn more at [energypal /best-solar-panels-for-homes MLE 275W](#) If-cut, four busbar monocrystalline cells. Designed for durability with a double coated ...

The positive power tolerance guarantees utmost system efficiency. Only modules achiev-ing or exceeding the designated nominal power in performance tests are dispatched. The power tolerance ...

NOCT: Irradiance 800 W/m<sup>2</sup>, ambient temperature 20 ±176;C, AM=1.5, wind speed 1 m/s; Best in Class AAA solar simulator (IEC 60904-9) used, power measurement uncertainty is within +/- 3%

Detailed profile including pictures, certification details and manufacturer PDF.

The new compact frame means more modules per package, so it saves your shipping and inventory cost. The rigid and durable hollow chamber guarantees the same long-term and reliable performance.

SolarWorld Plus-Sorting Plus-Sorting guarantees highest system efficiency. SolarWorld only delivers modules that have greater than or equal to the nameplate rated power.

38.30V 9.52A 1650&#177;1 Monocrystalline silicon cell (156.75x156.75) Cell Array 60(6x10) Module Dimension 1650mm x 992mm x 35mm Weight 18.3kg Pallet Dimension

Parameters are rated at standard test conditions (irradiance of 1000W/m<sup>2</sup>, AM 1.5, cell temp. 25&#176;C).
