What is a 42U navepoint commercial server cabinet?

The 42U NavePoint Commercial Series network server cabinets have capacity and quality --everything it takes to get the job done right for your high-density applications that rack and store a range of 19-inch equipment like servers, patch panels, PDUs, routers, and more.

What is a network cabinet made of?

The exceptionally sturdy welded frame is made of heavy-duty Cold Rolled Steel with a durable, sophisticated Black Powder Coated finish. It's the network cabinet with the right design and construction to bring lasting security and reliability to your high-density build. Comes fully assembled on a pallet due to size.

How deep are the cable management rails?

The full height cable management rails (included) help you execute an install that's neat and tidy. The mounting rail depth is marked and adjustable in 10 mm increments between 6 and 21.5 inches deep. Glass front and French rear doors improve airflow.

Are navepoint cabinets heavy duty?

The Commercial Series cabinets define heavy duty - the 42U model holds a static load of 3000 lbs (stationary). The NavePoint Commercial Series cabinets come pre-assembled for easy setup and include pre-installed heavy-duty locking casters for mobility, and leveling feet for use when the fully racked cabinet needs to stay in place.
