Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in Estonia.

Estonia's Auvere BESS project is designed to participate in both the electricity exchange and other energy markets to ensure the security of electricity supply. According to Eesti Energia ...

Estonia's state-owned energy company, Eesti Energia, has officially launched the country's largest battery energy storage system at the Auvere industrial complex in Ida-Viru County. The 26.5 ...

The largest battery park in continental Europe was opened in Kiisa, Harju County, on Tuesday, capable of serving 90,000 households.

Large-scale battery storage systems such as Hertz 1 are essential to balancing intermittent renewable generation with consumption needs, while supporting Europe's transition toward a more ...

The 100 MW/200 MWh battery energy storage project in Kiisa began operation on Feb. 3 as scheduled - just two weeks after a testing fault at the facility caused the most significant ...

Baltic Storage Platform has inaugurated the 200MWh Hertz 1 battery energy storage system in Kiisa, developed through a joint venture between Evecon, Corsica Sole and Mirova.

The EUR100M project, led by Baltic Storage Platform, will deliver some of Europe's largest battery storage complexes with a combined capacity of 200 MW and a total storage capacity of 400 MWh, putting ...

Estonian renewable energy developer Evecon, together with the French solar power company Corsica Sole and investment manager Mirova, on 3 February opened one of the largest ...
