Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Solar-Gen is a new range of customisable solar pv generators with battery storage, housed in modified shipping containers. The solar pv arrays have peak outputs from 800 Wp to over 10,000 Wp and ...

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

BK650-CH - APC Back-UPS 650VA, 220V, 4 chinese outlets.

We partner with Stealth Power to acquire and install the solar arrays on top of the container during the build. Stealth Power's stick-on panels make installation quick and easy. The roofs of our containers ...

With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours. Go big with our modular design for easy additional solar ...

These panels are part of the ingenious folding system with which they can be pulled out of the container quickly and easily using the innovative solar rails and can be spread over a total length of 116m (60m per side). This ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer the manual version of this unit.

Bk650-chsolar container system

Thanks to foldable solar arrays, the container is rapidly deployable -- operating within hours to support power needs across diverse scenarios. Built for longevity, the SolaraBox solar container is built to ...
