---

Developer-operator GridStor has acquired a 200MW/800MWh in-development battery energy storage system (BESS) project in Oklahoma, US, from Black Mountain Energy Storage (BMES).

GridStor has acquired a battery storage project in Oklahoma, totaling 200 MW / 800 MWh to be developed in two phases, from Black Mountain Energy Storage (BMES).

The 200 MW, four-hour storage project was acquired from Black Mountain Energy Storage for an undisclosed fee. Oregon-based battery energy storage system (BESS) developer ...

US energy storage company GridStor announced the acquisition of a 200-MW/800-MWh battery energy storage system (BESS) project in Oklahoma from Black Mountain Energy Storage ...

Our projects contain flexible assets tactically positioned at points of persistent grid congestion and volatility.

Founded in 2021, BMES was established to bring reliable, emissions-free energy storage capacity to the electric grid to enhance system reliability and enable greater reliance on renewable generation.

GridStor, a leader in utility-scale battery energy storage systems, has announced the acquisition of a 200 MW / 800 MWh battery storage project in Oklahoma from Black Mountain Energy ...
