How can you make money from a solar roof?

Solar rooftop leasing is one of the three basic ways you can make money from your rooftop with solar energy. The other two involve owning and operating solar panels on your own roof and joint venturing with a developer who will install the solar panels and share the income with you.

Should a property owner invest in rooftop solar?

While a property owner might not have the resources to invest in a rooftop solar today...they still might be interested in realizing some income from solar energy through leasing their rooftop space to a developer - and make money while they learn more about the benefits of installing solar energy on their building.

Is rooftop solar a good investment?

Rooftop solar power represents one of the most impactful decisions homeowners can make for their finances, energy independence, and environmental impact. With 2025 bringing continued cost reductions, technological improvements, and strong federal incentives, the value proposition for rooftop solar has never been stronger.

How much does it cost to install solar on a roof?

Installing solar on an aging roof that needs replacement within 5-10 years can result in costly panel removal and reinstallation fees, typically \$3,000-\$5,000. Roof Material Compatibility: Most roofing materials accommodate solar installations: The ideal roof for solar has these characteristics:
