---

With 5G we are able to make high quality video calls with our phones without necessarily the use of third-party applications like WhatsApp, Snapchat among others.

The shared 4G and 5G infrastructure will be built by Nokia and Radisys, with IT architecture and integration provided by Microsoft and Tech Mahindra.

Accra, Ghana - Nov. 1, 2024 -- Next Gen Infracore (NGIC), Ghana's premier 5G wholesale infrastructure provider, today announced the launch of 5G services in Ghana in collaboration with global ...

The country's digital transformation agenda took a significant leap when President Nana Addo Dankwa Akufo-Addo launched the fifth generation (5G) mobile network service in Accra.

Accra is adopting a shared infrastructure model --neutral-host towers, open-access fiber networks, and multi-tenant data centres. This approach reduces redundancy and costs, while improving scalability.

The rollout by NGIC is expected to initially deploy 5G services in major urban centers including Accra, Kumasi, and Takoradi, with a plan for a nationwide expansion targeting complete ...

Accra, 1st November 2024 - The Minister for Communications and Digitalisation (MoCD), Mrs. Ursula Owusu-Ekuful (MP), has announced the official launch of Ghana's 5G network, marking a pivotal ...

NGIC will begin a phased rollout of the 5G service starting in major cities such as Accra, Kumasi, and Takoradi, followed by additional urban centers by the end of 2024.

NGIC's rollout will begin in Ghana's largest urban areas -- Accra, Kumasi and Takoradi -- with these cities expected to have 5G coverage by the end of 2024. NGIC will then expand to ...
