---

On Thursday, the Estonian energy company Evecon and Mirova, an asset manager dedicated to sustainable finance, opened the largest solar park in the Baltics, located in Kirikm&#228;e in ...

The land area of Kirikm&#228;e solar park is 110 hectares and it will cover the annual electricity consumption of an estimated 35,000 households. A total of 117,600 solar panels with a total power of 655-665 W ...

The largest solar farm in the Baltics has opened in P&#228;rnu County, Estonia; the Kirikm&#228;e Solar Farm, which covers 110 hectares (272 acres) and has a generating capacity of 77.53 ...

The Risti solar PV plant aligns with Estonia's national goal of achieving greater energy independence and sustainability. By combining solar, battery storage, and wind power, it is designed ...

Renewable energy producer Sunly has begun constructing a 244-megawatt solar park near Risti in L&#228;#228;ne County - the largest in the Baltic States.

The European Investment Bank (EIB), together with local commercial banks SEB and Luminor, is lending the Estonian renewable energy company Sunly EUR62 million to build and operate a ...

Once fully operational, the Pihlaka solar farm is expected to generate 41,230 MWh annually to be sold on the open market. This will not only make a significant contribution to greening ...

It will be the biggest photovoltaic (PV) production site in the Baltics, with a capacity of 244 megawatt peak (MWp) - enough to power more than 80,000 households in Estonia.

Located in L&#228;#228;ne County, approximately 65 kilometres southwest of Tallinn, the solar park is expected to be operational by 2027 and will generate enough electricity to power over 80,000 Estonian ...
