From CNC, robotic and other mounted applications, to hand finishing operations, the unique technology employed in the design and manufacture of these products delivers a cleaner cutting action, faster ...

Rather than changing the speed of the traditional electro-spindle for different cutting tools, the operator of fixed high-speed Air Turbine Live Tools simply adjusts the rate of advance ...

The 650 Series spindles add high speed to any CNC machine and are available with all popular shank configurations, including JS, HSK, CAT, BT and DIN, and options for fully automated ...

From CNC, robotic, to hand finishing operations, the unique technology delivers a cleaner cutting action, faster production rate, and eliminates problems associated with traditional tools.

Replace vane tools, geared speeders and electric motors that heat up and burn-out with our maintenance-free high-speed governed turbines operating with no heat.

Air Turbine Live Tools™; integrate seamlessly with lathes and Swiss machines with a very easy set up requiring no wiring or control box, allowing for high-speed cutting, improved surface ...

The NSK Presto II is an ultra precision oilless high speed air turbine carver. It is designed to run at 320,000 RPM's at 35 PSI. It requires a compressor capable of 1.5 CFM at 35 PSI and most ...

The World's Fastest & Lightest Power Carving Tool for Detailing, Precision Carving, Etching, and Engraving. With a Turbo Carver The Possibilities Are Endless! The Turbo Carver is a high speed ...

The Powercrafter carver is a high speed air turbine carver tool that cuts, engraves, and carves any surface with ease. You no longer have any surface limitation. All wood, bone, stone, glass, ceramic, ...
