How do I choose a solar panel brand?

It's unusual to choose a specific solar panel brand at the outset. Instead you're likely to encounter different brand options as you get quotes from different installers. Typically, your chosen installer will buy the panels to fit on your home. Some only install solar panels from one brand, while others may install panels from a few brands.

Which Solar brand should you choose?

For those seeking peak efficiency and longevity, SunPower and LG Solar are industry leaders. If affordability is your priority, Jinko Solar, Canadian Solar, and LONGi offer excellent choices. Brands like REC Solar, Panasonic, and First Solar, meanwhile, cater to those with particular environmental or climate-related concerns.

How do I choose a good solar panel?

You'll probably want a very powerful solar panel (unless you use very little electricity). Even light shading can reduce your solar panels' output by 50% or more. Look for solar panels with high power output and high efficiency.

What is the difference between a solar panel brand and a company?

Before we dive into the top brands, it's important to understand the difference between a solar panel brand and a solar company: Solar Panel Brand: These are manufacturers that design and produce solar panels (e.g., Maxison, Canadian Solar, Jinko Solar). Solar Company: These businesses sell, install, and maintain solar systems.
