Three packaging methods for PV modules: a) Landscape vertical packaging is recognized as optimal; b) Horizontal stacking has been eliminated; c) Portrait vertical packaging is applied for larger PV modules.

When the last 5 pieces of modules are left in the box, please placed to a solid support on the side of modules to avoid the box turned over due to the strong wind and accidental collision.

Ever wonder why some photovoltaic panels outlive their warranties while others crack under pressure? The secret sauce isn't just in the silicon wafers - it's in the packaging and finishing methods that work ...

Panels from the First Solar Series 6 and 6+ lines should be placed on pallets with the glass side facing upward. This arrangement helps prevent water accumulation, which could increase pallet weight and ...

The new packing is designed for maximizing modules per container. As opposed to the horizontal stacking of modules that was done before, the modules are now placed vertically.

As high-priced products, correct, safe and efficient packaging of the solar panels is essential. This brief article introduces solar panel packaging.

If multiple panel types are to be stacked on a given pallet, they should be stacked with the largest modules on the bottom of the stack and the smallest modules on the top in a manner that will prevent ...

You want to send several new or used PV modules and do not really know how to pack them? These packaging instructions will show you how to safely pack multiple solar panels on a pallet, for a secure ...

After the PV modules are produced and tested, they are transferred to the packaging area by forklift. The four corners of the PV modules are wrapped in cardboard, and a group of modules is...

Illustration of the method of packing photovoltaic panels in pieces

Solar Panel Packaging Basics Problems of Bad Packaging Dangers During Loading and Transport Solar panels are typically either horizontally or vertically stacked in a box. Usually, separators are placed between each module, and extra protections are added to the four corners of each module stack. In some cases, modules are also packed in individual cartons boxes to be packed into a large master carton box. The box on the pallet is the... See more on sinovoltaics Published: May 20, 2014
