We specialize in custom lithium-ion designs and offer assemblies in all other chemistries. Aerospace & Defense batteries and battery packs are used for a variety of critical military applications ranging ...

Our team of experienced battery engineers will work closely with you to design and manufacture batteries that meet your specific voltage, capacity, and size requirements.

We can design and manufacture custom battery packs using lithium iron phosphate (LFP) cells for your power or energy application. Robust cylindrical, prismatic, or pouch cells can be produced for your ...

In this comprehensive technical guide, I'll share an in-depth look at our end-to-end custom lithium battery pack manufacturing process.

Our methodology ensures every custom lithium-ion battery pack - from ultra-low-temperature 18650 configurations to high-voltage LiFePO4 arrays - delivers uncompromised ...

We are a full-service custom battery manufacturer with full design and engineering capabilities. Our team has extensive experience with lithium-ion, lithium polymer, nickel metal hydride, nickel ...

We work with each client to design fully custom energy solutions, from basic functionality to exact voltage and capacity. The process begins with a comprehensive feasibility study to understand the ...

Using CAD, SolidWorks, and electrical design tools, we create custom battery architectures for IP67/IP68 water resistant, explosion-proof housings, and heat management. To save you time, we ...

The advantage of Lithium-Ion is the high energy density (weight-to-size ratio). We bring together our engineering, manufacturing, and quality teams throughout the service/manufacturing ...

Kc solar container lithium battery pack custom processing

At Sunpower, we can provide one-stop battery pack solutions in sorting, matching, SMT patch, welding, screw assembly, and post-processing, etc. From UN38.3 transport approval to UL and CB ...
