Shanghai-based Envision Energy unveiled its newest large-scale energy storage system (ESS), which has an energy density of 541 kWh/m², making it currently the highest in the industry.

A framework for the "development, utilisation and commercialisation of energy storage systems" in the Philippines has been passed by the House of Representatives.

To that end, OE today announced several exciting developments including new funding opportunities for energy storage innovations and the upcoming dedication of a game-changing new ...

Solutions that can support you improving your energy storage operations, empower your workforce with advanced tools and provide actionable insights and visualization to enhance efficiency and help you ...

These startups develop new energy storage technologies such as advanced lithium-ion batteries, gravity storage, compressed air energy storage (CAES), hydrogen storage, etc

In 2023, Trina Energy will accelerate its expansion into overseas markets, and the first overseas 100-megawatt energy storage project will be successfully shipped in June, which will build ...

Huijue Group offers industrial and commercial energy storage, PV-BESS -EV Charging, Off-grid / On-grid Microgrid, telecom site solutions, and home solar energy storage, ensuring ...

The top 10 companies driving cutting-edge storage tech and supporting the push toward a safe and decentralized carbon-free future are highlighted in this article. 1. Tesla Energy (USA) Tesla ...

Here are ten notable innovations taking place across different energy storage segments, as highlighted in GlobalData's Emerging Energy Storage Technologies report.

New Energy Storage Equipment Enterprise

Explore high voltage battery packs, wall mounted lithium batteries, and ESS cabinets from Hoenergy -- your 2025 Global Tier 1 Energy Storage Provider.
