For the latest updates and more information, visit our website: <https://sesona.co.za>

Our offering includes low-voltage switchgear, transformers, fabricated substations, as well as core components for single products - all engineered for high efficiency, durability, and seamless ...

Implementation of a BESS system in an of-grid site will require a energy needs assessment, battery system design, integration and control systems, testing and commissioning.

C& I BESS cabinet reduce electricity costs by leveraging peak-valley electricity price arbitrage, improving renewable energy utilization, and participating in demand response programs.

High Efficiency: Achieves a system conversion efficiency of 90% through intelligent liquid cooling strategies that reduce internal power consumption. Grid Stability: Features a charge/discharge ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

Polarium BESS helps minimize energy costs through smart peak shaving, storing power during low-demand periods, and avoiding costly grid upgrades by efficiently managing power loads.

The system is engineered for high levels of intelligence and efficiency. Its all-in-one modular design supports multiple operational modes, including virtual power plants, grid-connection, and off-grid ...

Our dual bay module increases usable energy and can scale up to 48 cabinets in on and off-grid connected applications. These systems are designed with the same MPPT technology and leading ...

The Battery Energy Storage System Cabinet is a professionally engineered outdoor enclosure designed to house lithium battery modules, BMS, EMS, PCS, and power distribution components in a secure, ...

All-in-One BESS Cabinet On & Off Grid PQA-C Series 125KW/261KWh. Battery Energy Storage System

Off-grid bess cabinet for bridges

Outdoor Cabinet, with outdoor hybrid inverter.
