Can I claim a credit for a solar PV system?

o You own the solar PV system (i.e., you purchased it with cash or through financing but you are neither leasing nor are in an arrangement to purchase electricity generated by a system you do not own). o The solar PV system is new or being used for the first time. The credit can only be claimed on the "original installation" of the solar equipment.

How much can I claim if I have a solar PV system?

o There is no maximum amount that can be claimed. o Your solar PV system was installed between January 1, 2006, and December 31, 2023. o You own the solar PV system (i.e., you purchased it with cash or through financing but you are neither leasing nor are in an arrangement to purchase electricity generated by a system you do not own).

What happens if a solar panel is included in a supply and install contract?

Where solar panels are included in a supply and install contract that involves a range of other fixtures, the zero rate may continue to apply to the supply and installation of the solar panels and ancillary equipment to the solar panels; the other fixtures will be taxed at the appropriate rate (i.e. the reduced rate or standard rate).

Are solar panels subject to VAT?

This guidance sets out the VAT treatment of the supply and installation of solar panels. The supply of solar panels is subject to the standard rate of VAT. However, the reduced rate or zero rate may apply when solar panels are supplied and installed as part of a supply and install contract.
