What is Scaling Solar in Senegal?

These plants are part of the Scaling Solar initiative in Senegal, jointly led by the Senegalese authorities and the International Finance Corporation (IFC), which aims to promote investment in solar energy. These are the first electricity generation projects by private operators to be tendered in Senegal.

How can a photovoltaic system benefit Senegal?

An array of 92,000 photovoltaic panels has been installed and around 30MWp of renewable energy can now be utilised - securing a valuable and sustainable supply of low-cost electricity for Senegal, while providing an uplift to the local economy.

How many photovoltaic power plants are in Senegal?

ENGIE, Meridiam and FONSI (Senegal's Sovereign Strategic Investment Fund) announce the commissioning of two photovoltaic power plants in Senegal with a total production capacity of 60 MW - Kahone Solaire SA (35MW) and Kael Solaire SA (25MW) - located respectively in the regions of Kaolack and Diourbel, in the center of the country.

Why is Senergy a good investment in Senegal?

Overall, the Senergy project is a significant contributor to Senegal's installed solar PV capacity and is providing clean and affordable power to more than 200,000 Senegalese people. A dedicated team is responsible for supervising Meridiam's four solar plants in Senegal. The plants therefore benefit from pooled resources and return of experience.
