Why should you choose solar Finland?

Solar Finland and its subsidiaries with strong long-term background are experts in all aspects of solar energy. Our extensive know-how and experience of over 40 years make it possible to develop in different areas making our products and services competitive in the solar energy markets both domestically and abroad.

Is energy storage a future-proof solution?

Energy storage is no longer an option but a necessity for sustainable growth and competitiveness. Enico Oy launches a next-generation energy storage solution: Enico | Jupiter. This fully modular product family, based on European technologies, brings cost-efficiency to energy storage projects - and delivers future-proof solutions today.

What is an energy storage system?

An energy storage system enables property-specific optimization of electricity consumption and energy costs. It can also be used to participate in grid frequency reserve markets. Enico | Jupiter scales to large-scale renewable energy applications and hybrid power plants.

Who makes Salo solar panels?

Salo Solar designs, sells and builds comprehensive turnkey solar electricity systems. Salo Tech manufactures and sells high-quality Finnish SALO solar panels. Salo Automation designs and builds production lines and machines meant for the production of solar panels. Salo Energy builds solar parks and invests in local solar electricity.
