Overview Global studies Cost metrics Cost factors Regional studies See also Further reading Notes *LCOE estimates for nuclear power from Lazard are “based on the then-estimated costs of the Vogtle Plant and US-focused”. In 2023, Bank of America conducted a LCOE study in which it postulated that existing LCOE estimates for renewables do not account for fossil fuel or battery backup and therefore levelized full system cost of electricity (LFSCOPE) would be a more reasona...

Steep learning curves and the economies of scale enabled technological improvements and, in consequence, have led to massive cost reductions.
