What size power bank should I buy?

Power bank sizing depends on what devices you use and how often you recharge on the go. Brands like Veger offer a range of capacities from slim 5,000mAh pocket models to powerful 30,000mAh multi-device chargers--so there's something for everyone once you know your usage needs.

How to choose a small power bank?

A small power bank won't do any good if you are often on the road. Hence, you must pick the right size of the power bank. Besides that, you should also calculate the number of devices you need to charge and the charging speed.

What size power bank should I buy for my iPhone?

To choose the best size: A 5,000mAh power bank can charge most iPhones once. A 10,000mAh power bank can provide up to 2 full charges. For travel or backup, 20,000mAh is a solid all-day solution. Make sure the power bank supports USB-C PD or Lightning input for quick top-ups. Newer models like the iPhone 13-15 also support fast charging up to 20W.

Should you buy a 5000 mAh power bank?

For example, if you have the Google Pixel 8a, the Miisso 6,000 mAh portable charger should be good for backup. However, if you have a smartphone with a large battery or a laptop, opting for a heavy-duty power bank is wise. However, it's not as simple as buying a 5,000 mAh power bank to charge a 5,000 mAh smartphone. Life should be that simple, no?
